The Present Day Evolution of Law Librarianship

Join your colleagues for a lively discussion on the evolution of law librarianship. Listen to the four esteemed panelists while they answer questions focusing on the types of positions that Boston law librarians have evolved into, the skills and knowledge required to be successful and how these requirements have evolved over the years, how they have adapted to the recent shift in the legal industry, how they view library services and physical space in the changing environment, and what skills they consider important for law librarians to be successful in the future. Chris Laut will moderate the program. Time will be reserved at the end for Q&A. Questions are encouraged!
